PROFILE

UI/UX Designer with 7+ years of professional experience across digital platforms and technology, including 2 years focused on UI/UX design. Experienced in Figma, user-centred design, responsive interfaces and data-informed optimisation, with a strong background collaborating with cross-functional teams on high-traffic digital experiences.

SKILLS

- UI/UX Design
- User Research & Analysis
- User Flows & Information Architecture
- Wireframing & Prototyping
- Usability Testing
- Responsive Design
- Figma – Auto Layout & Constraints
- Components & Variants
- Design Systems
- A/B Testing
- Data Analysis
- Stakeholder Collaboration

Technical & Tools

- Figma
- HTML & CSS
- JavaScript & React.js
- GitHub
- JIRA

INDEPENDENT PROJECTS

Frugal – Personal Finance & Budgeting App | UX Case Study | 2025

UI/UX Design

- Conducted user interviews and competitor analysis to understand budgeting behaviours, pain points and user needs, translating insights into personas, user journeys and design opportunities.
- Defined user flows and information architecture to structure key features and create clear, intuitive navigation across the product.
- Created low-fidelity wireframes and high-fidelity UI designs in Figma, developing interactive prototypes to explore and validate key user journeys and interactions.
- Conducted usability testing, analysed user feedback and iterated designs to address usability issues and improve navigation, clarity and overall experience.
- Built a reusable design system in Figma using components, variants, Auto Layout and consistent UI patterns, and extended the mobile solution into a responsive web experience while applying accessibility and responsive design principles.

WORK EXPERIENCE

MEDIAMINT | Subject Matter Expert

Hyderabad, India | Oct 2020 – Jan 2024

(Promoted from Associate II → Associate III → Subject Matter Expert)

Joined MediaMint as an Ad Operations Associate and progressed to Subject Matter Expert, with responsibilities across website experience, design and optimization.

- Collaborated with clients, product stakeholders and engineering teams to understand business requirements, identify experience and layout challenges, and recommend improvements to digital experiences.
- Analysed user behaviour, engagement patterns and page performance to investigate performance drops and identify potential usability, navigation and layout issues.
- Designed and refined wireframes, page layouts and interactive prototypes in Figma, exploring different approaches to improve user experience and website performance.
- Used behavioural and performance insights to make informed design decisions around page structure, content hierarchy, placement and user journeys.
- Presented design recommendations to stakeholders, explaining design rationale and balancing user needs, business requirements and technical considerations.
- Iterated designs based on stakeholder feedback, performance insights and technical considerations before implementation.
- Collaborated closely with developers and Ad Operations teams to translate designs into responsive, implementation-ready solutions.
- Reviewed implemented changes, investigated layout and performance issues, and continued optimizing experiences based on results and evolving requirements.
- Managed end-to-end website campaigns for enterprise clients while serving as the Subject Matter Expert for layout implementation, troubleshooting and optimization.
- Led client onboarding, process audits and cross-functional training, translating complex technical and design requirements into clear documentation and practical guidance.

HCL Technologies — Senior Analyst

Hyderabad, India | Aug 2019 – May 2020

- Analysed and resolved delivery and performance issues for US-based publishers as part of the Google Publisher Ad Operations team, using data and root-cause analysis to identify issues and improve platform performance.
- Collaborated with engineering, escalation and account management teams to resolve complex issues and improve operational workflows and platform reliability.

ValueLabs — Software Engineer

Hyderabad, India | May 2016 – July 2019

- Developed and maintained **data-driven features, integrations and automation within Salesforce CRM**, testing releases and resolving system and data issues through root-cause analysis.
- Collaborated with **users, developers and stakeholders** to gather requirements, understand workflows and translate business needs into reliable technical solutions.

AWARDS

- Employee of the Quarter (×3) — MediaMint | Q1 2023, Q3 2021, Q1 2021
- Spot Award for Performance — MediaMint | Q1 2022
- Client's Favorite Award — MediaMint | Q4 2020
- Diamond Award — HCL Technologies | 2019

CERTIFICATION

Google UX Design Professional Certificate

EDUCATION

Jawaharlal Nehru Technological University, Anantapur
Bachelor of Technology - BTech, Information Technology (2011 -2015)
